

FORCEnet

16th Annual National Operations Security Conference 24 May 2005

**RADM Ken Slaght, USN
Commander
Space & Naval Warfare Systems Command**

Agenda

- A little *SPAWAR* background
- Defining FORCEnet
- Delivering FORCEnet
 - Architecture
 - Governance
- The Road Ahead

“Transforming information into decisive effects.”

Space & Naval Warfare Systems Command

Who we are ...

One of the Navy's three major acquisition commands with 7,600 employees

What we do...

- Partner with PEO- C4I & Space to deliver C4ISR and FORCEnet capability to the joint warfighter
- Partner with PEO-IT, DNMCI & PEO Space Systems
- Develop Navy, Joint and Coalition Interoperability
- Navy C4ISR Chief Engineer
- Navy FORCEnet Chief Architect/Assessor
- Combined TOA \$5.8 Billion

Mission, Vision & Commitment

- **Mission Statement:**

SPAWAR Enterprise “delivers” FORCEnet – transforming information into decisive effects

- **Vision Statement:**

“FORCEnet is the decisive weapon for the future Force”

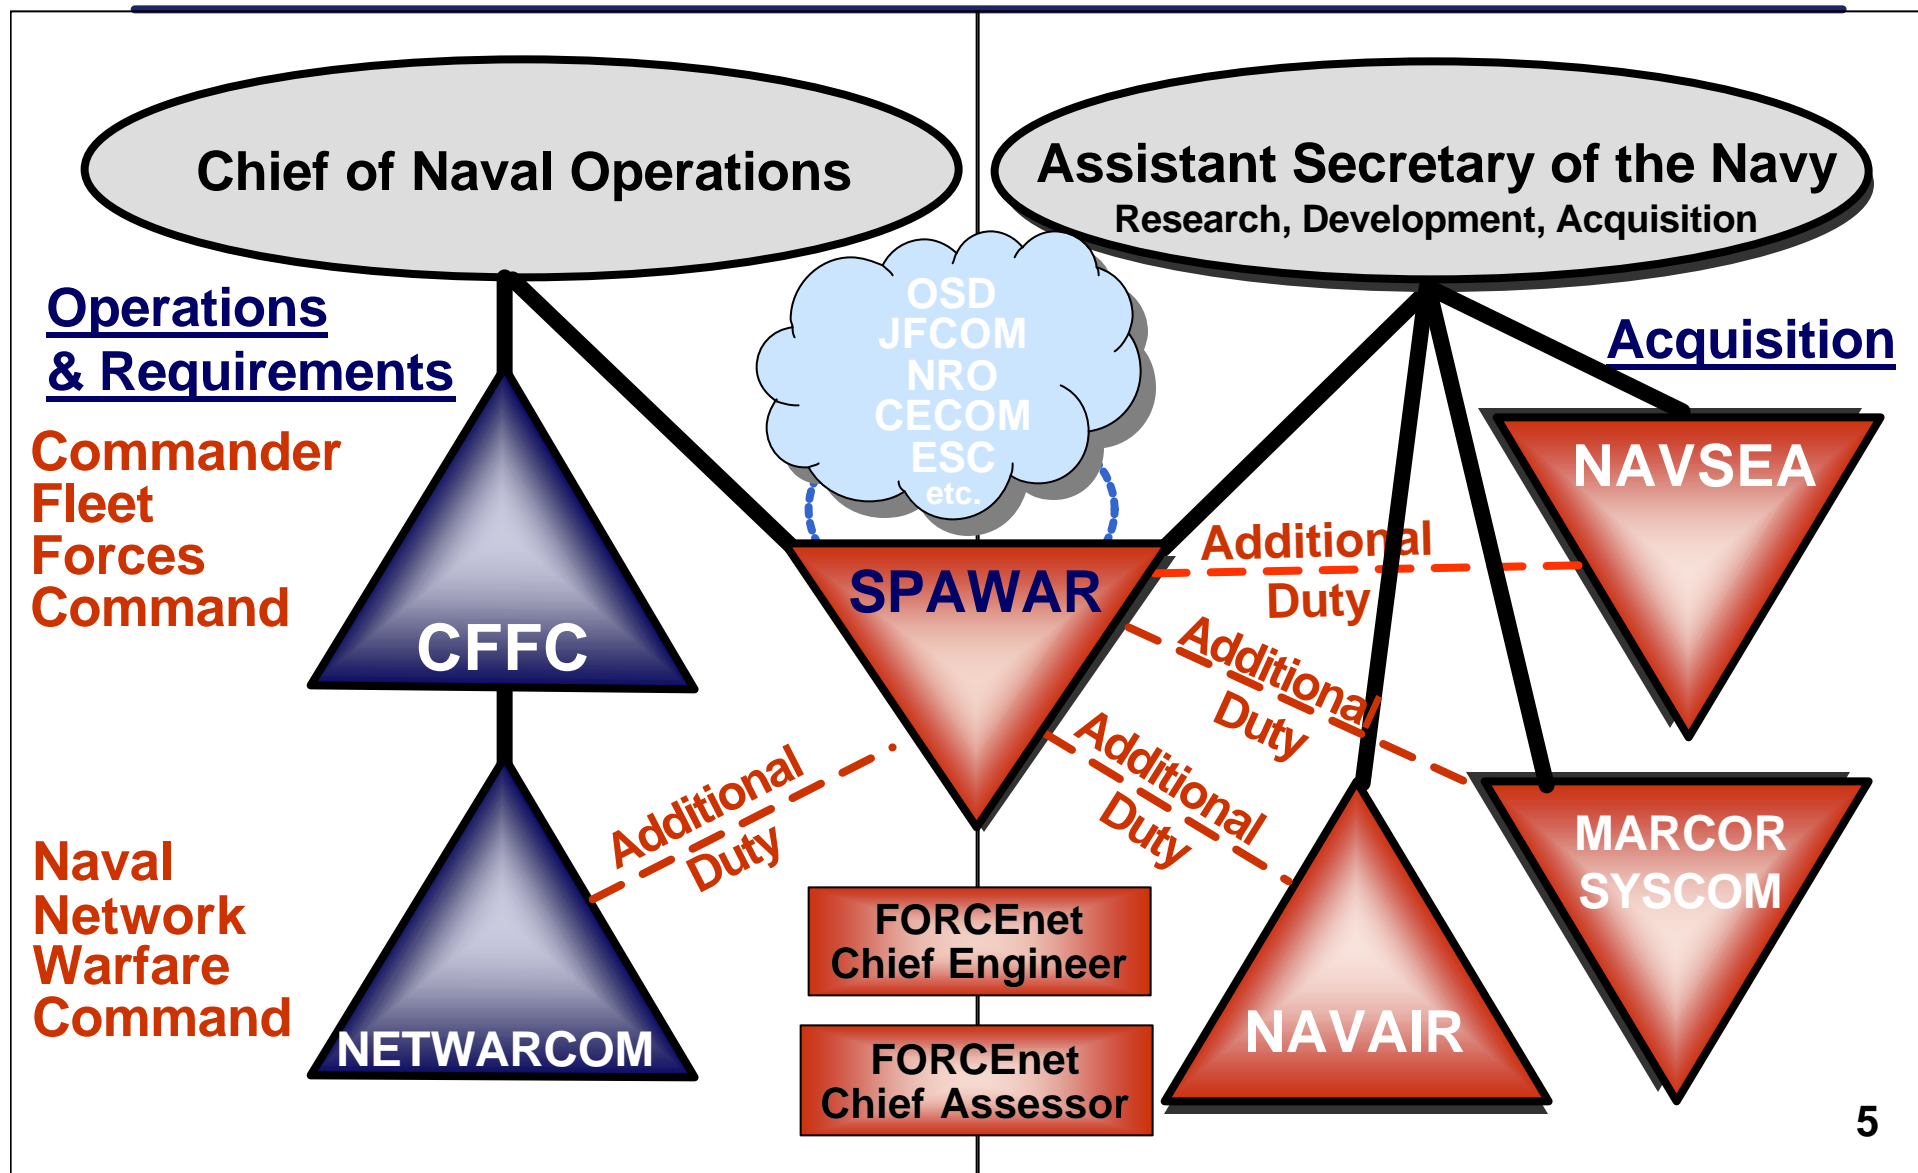

- **Commitment:**

– “We are dedicated to the Joint warfighters, who stand in harms way preserving our peace and defending our nation and its allies against aggression at home and abroad.”

“Transforming information into decisive effects.”

The FORCEnet “Network”

Agenda

- A little *SPAWAR* background
- **Defining FORCEnet**
- Delivering FORCEnet
 - Architecture
 - Mission Threads
 - Governance
- The Road Ahead

“Transforming information into decisive effects.”

The Navy's Vision

SEA POWER 21

Projecting Defensive Assurance
assure allies, deter adversaries, sustain access

Sea Shield

“FORCEnet Is the Operational Construct and Architectural Framework for Naval Warfare in the Information Age Which Integrates Warriors, Sensors, Networks, Command and Control, Platforms and Weapons Into a Networked, Distributed Combat Force, Scalable Across the Spectrum of Conflict From Seabed to Space and Sea to Land.”

CNO's Strategic Study Group XXI definition from 22 July 02 CNO Briefing

Sea Strike

Projecting Offensive Power...
responsive, precise, and persistent

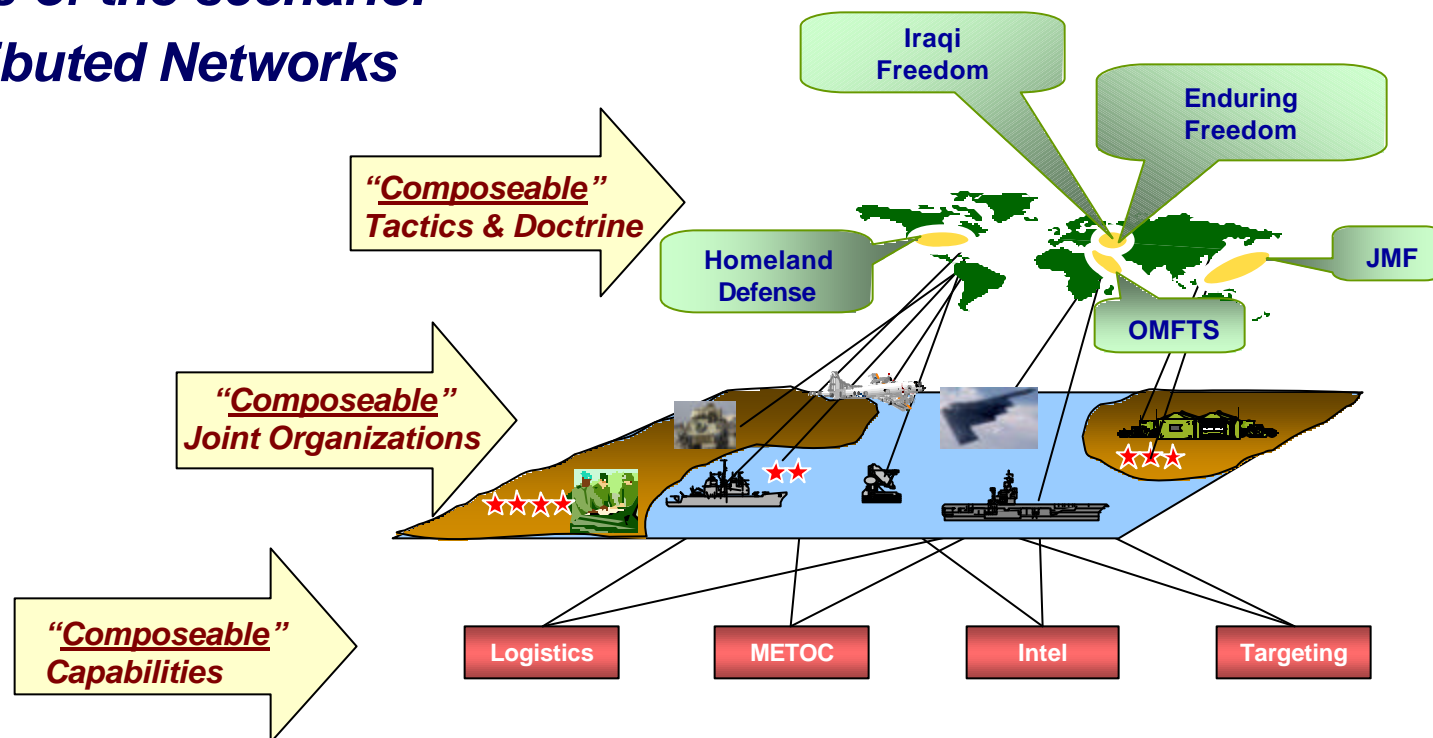

Sea Basing

Projecting Operational Independence...
joint power from the sea

FORCEnet Elements

- ***“Composeability” -- The ability to select “on the fly” from a vast network, the specific information resources which are best suited to solving a particular problem or providing specific information.***
- ***“On the fly” -- Sources will change with the information needs of the scenario.***
- ***Distributed Networks***

Agenda

- A little *SPAWAR* background
- Defining FORCEnet
- **Delivering FORCEnet**
 - **Architecture**
 - **Governance**
- The Road Ahead

“Transforming information into decisive effects.”

Current C4I Environment

IT21 Today

- Bandwidth Constrained
- Stovepiped Systems
- Inefficient Use of Resources
- Little Redundancy
- Multiple Enclave and Application Specific Networks
- Isolated Coalition Enclaves
- Stovepipe Raw Data Streams to Operator
- Inconsistent Data Quality Across Information, Sensor and Engagement Networks

Stovepiped Communications

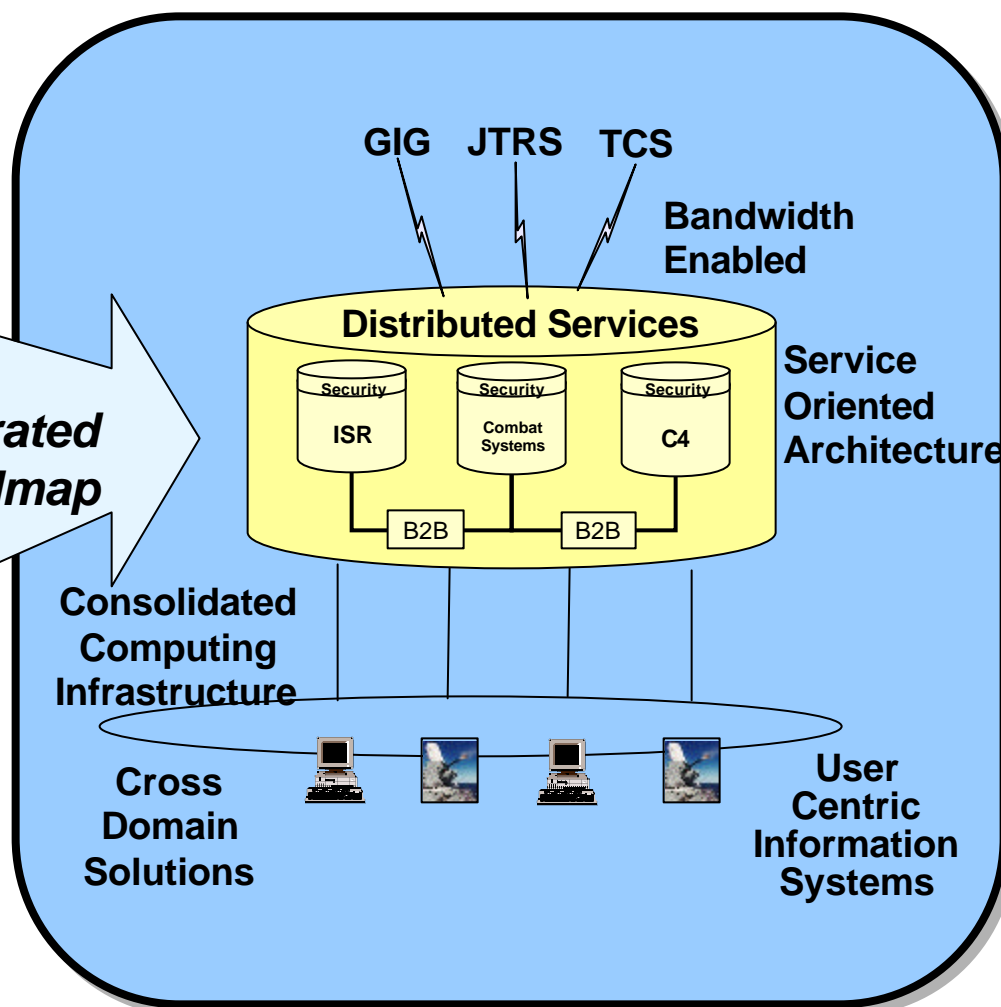

The Future Vision: NCW

NCW Objectives

- Remove Bandwidth as a Capability Limit
- Multi-path Transport & Redundant Paths
- Capability on Demand
- Distributed Operations
- Customized Applications
- Multi-User Access
- Customized Delivery
- Assured Sharing
- Information Provided to Operator is Relevant, Timely, Accurate, and Usable

*Integrated
Roadmap*

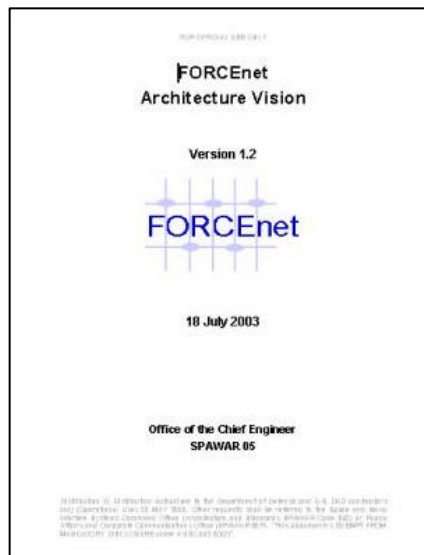

Agenda

- A little *SPAWAR* background
- Defining FORCEnet
- **Delivering FORCEnet**
 - **Architecture**
 - Governance
- The Road Ahead

FORCEnet Architecture

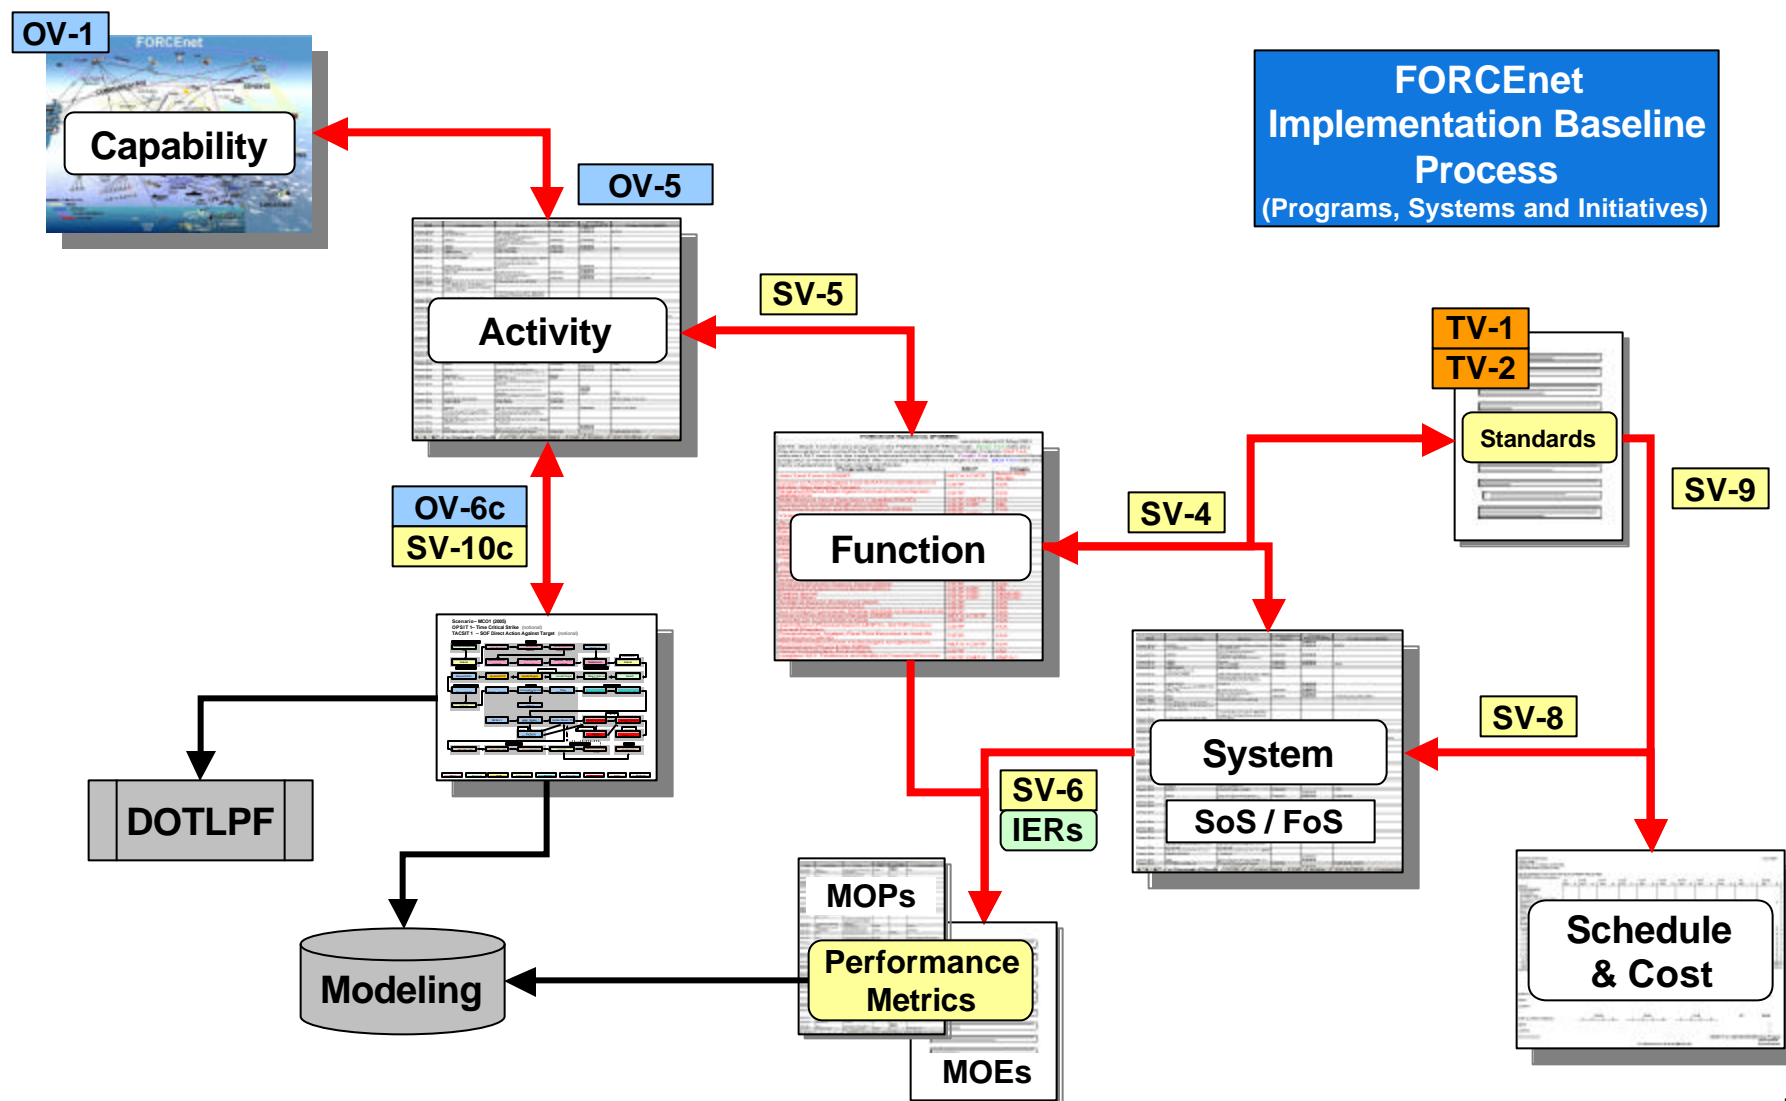

- The FORCEnet Architecture is being developed to identify an effective and efficient migration strategy that moves Naval PORs from current platform-centric/stovepipe domain to a future Joint and Allied/Coalition Network-Centric domain

Allied and Coalition Architectures and Standards are an important component of FORCEnet and have been written into the documentation from the outset

FORCEnet Architectural Flow

ISR/TCS “Best of Breed” Choice

Tech Compliance Evaluation Only

DCGS-N Net-Centric Alignment

Net-Centric Alignment	Human Systems Integration	Net-Centric Data Alignment	Net-Centric IA Alignment	Net-Centric Services Alignment	Net-Centric Transport Alignment
0.9325	1	0.94	1	1	0.79

NOTE

Cost, System Performance

(Mission Plus Reliability Plus

Other Factors) Not Considered

In This Selection. “Single Mission

Thread” Considerations Not Used

At This Point in the Analysis. Data

Is Mission Thread Independent.

*Data as of September 15

Agenda

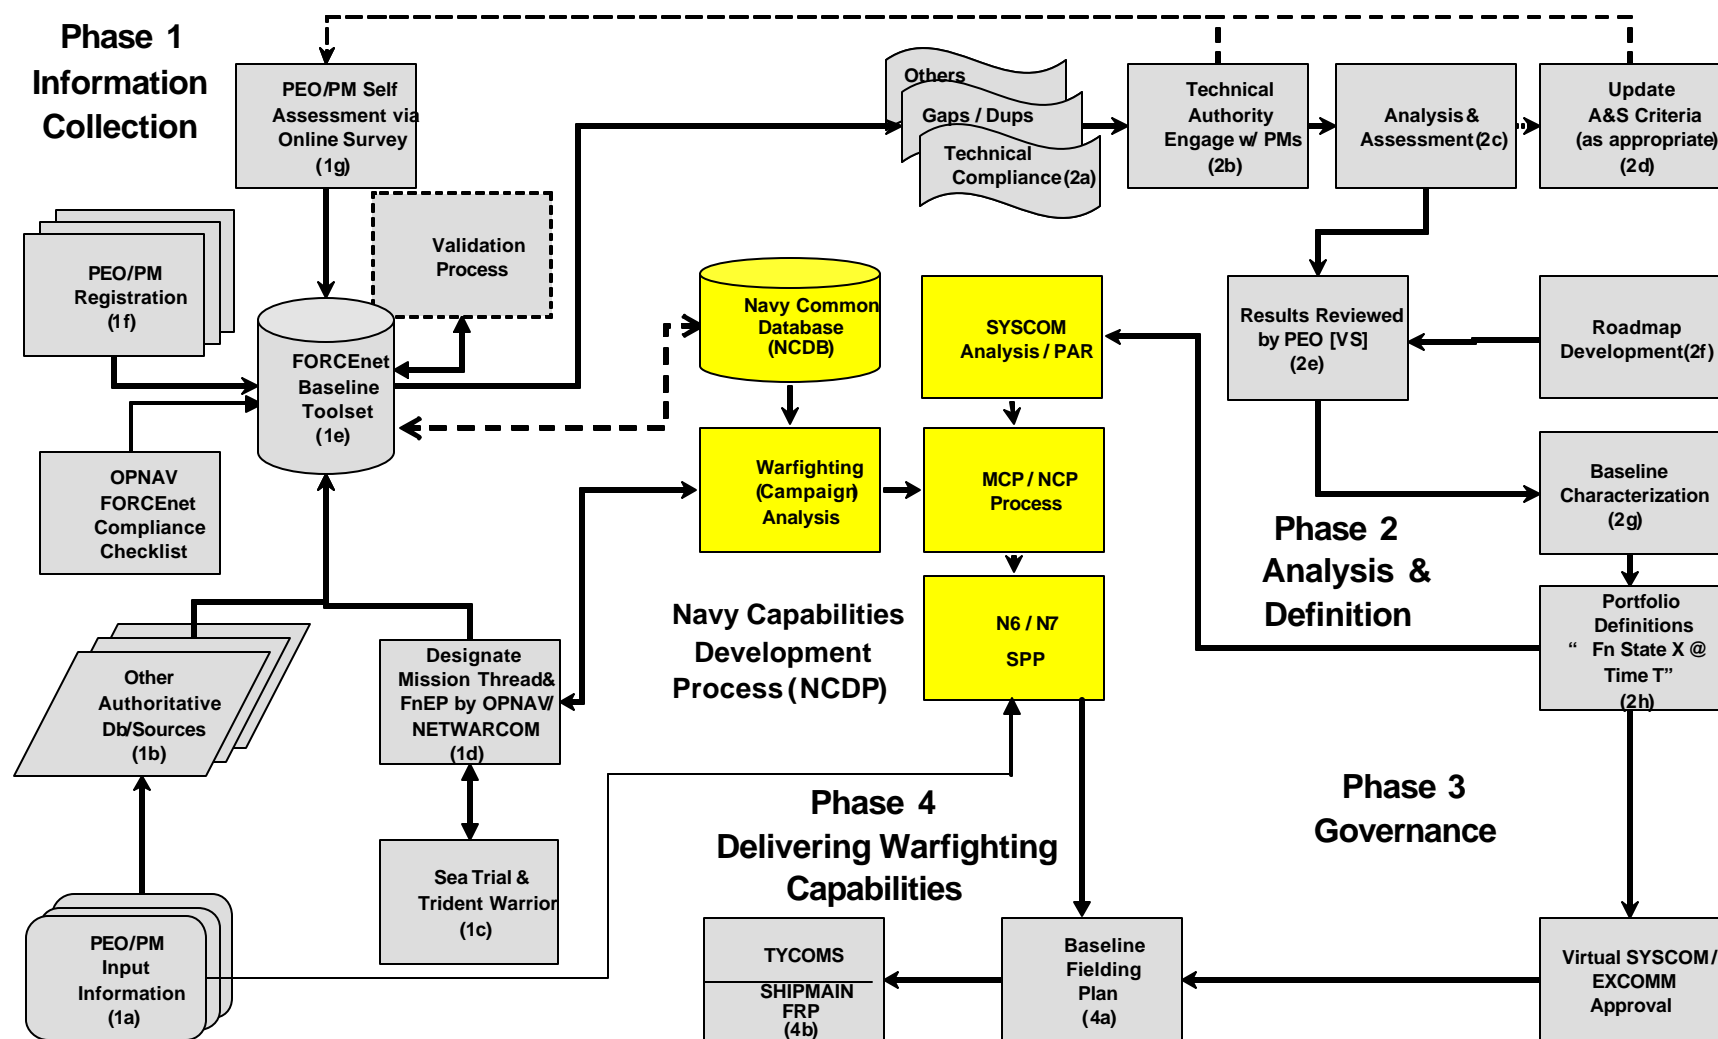

- A little *SPAWAR* background
- Defining FORCEnet
- **Delivering FORCEnet**
 - Architecture
 - **Governance**
- The Road Ahead

“Transforming information into decisive effects.”

FORCEnet - Implementation Process

Proposed version 2.0

Agenda

- A little SPAWAR background
- Defining FORCEnet
- Delivering FORCEnet
 - Architecture
 - Governance
- **The Road Ahead**
 - **FORCEnet and the GIG**
 - **Industry Consortium**
 - **Challenges**

“Transforming information into decisive effects.”

Uncertainties

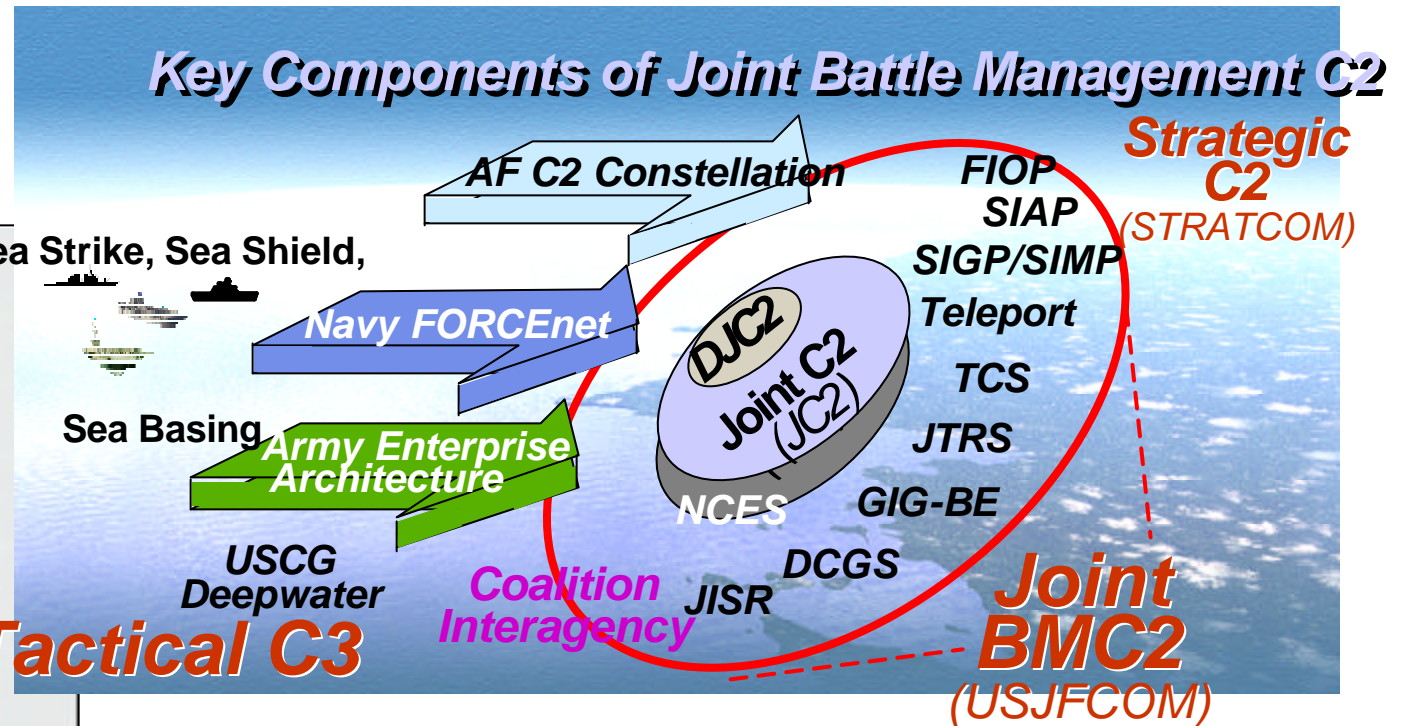

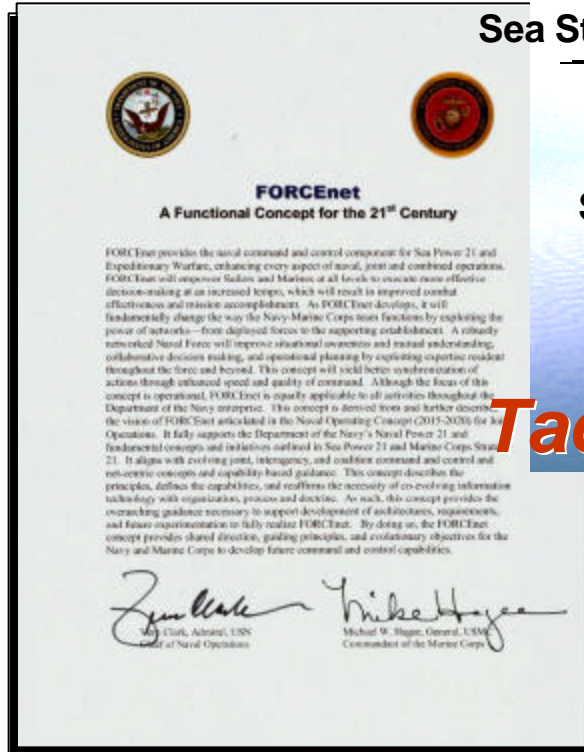

Agenda

- A little SPAWAR background
- Defining FORCEnet
- Delivering FORCEnet
 - Architecture
 - Governance
- **The Road Ahead**
 - **FORCEnet and the GIG**
 - Industry Consortium
 - Challenges

“Transforming information into decisive effects.”

Naval Component of the Global Information Grid (GIG)

FORCEnet Is an *Inherently Joint/Coalition Concept*, Relying on and Providing Essential Capabilities to the Joint/Coalition Community and Other Services and Agencies

Agenda

- A little SPAWAR background
- Defining FORCEnet
- Delivering FORCEnet
 - Architecture
 - Governance
- **The Road Ahead**
 - FORCEnet and the GLG
 - **Industry Consortium**
 - Challenges

“Transforming information into decisive effects.”

Network Centric Operations Industry Consortium (NCOIC)

- **60+ largest, global, defense/commercial companies formed to facilitate systems interoperability**
 - **DOD Service**
 - **Joint, Coalition**
 - **Non-DOD**
 - **Academic**
 - **Corporate**
- **Coordinate Industry efforts to establish standards, enhance integration & eliminate stovepipes**
- **One Focus Area: Test and Experimentation**
 - **Corporate, Navy-Marine Corps, Joint, and Coalition Labs connected in a virtual Network Centric Operations environment**
- **Eight other focus areas**

NCOIC - Focus Areas

- Requirements Generation
- Process Mapping & Modeling Commonality
- Architecture & Standards Integration
- Implementation Process & Assessment Alignment
- Test & Experimentation
- Joint Certification & Systems Implementation
- Human Systems Integration/DOTMLPF
- Information Assurance Development
- NetCentric Acquisition & Contracting Procedures

Agenda

- A little SPAWAR background
- Defining FORCEnet
- Delivering FORCEnet
 - Architecture
 - Governance
- **The Road Ahead**
 - FORCEnet and the GLG
 - Industry Consortium
 - **Challenges**

“Transforming information into decisive effects.”

Challenges

- **Constant IT turnover vs process**
- **Time to Market - “Results needed now”**
- **DoD & Navy “Churn”**
- **Efficiency and effectiveness initiatives**
- **Many “Stakeholders”**
- **No new funding**
- **Virtual SYSCOM**

“Transforming information into decisive effects.”

Summary

- **Fn Foundation Laid in FY03**
 - **Architecture**
 - **Standards**
 - **Assessments**
 - **Process & Tools**
- **Focus Shifting to Implementation**
 - **Virtual SYSCOM a Key Enabler**
- **Navy Leading the Joint Effort**

Fn Delivery Begins this FY!
